Drafting an emerging picture

Name:	Nidhi Saseendran
Community (UN SD goal):	7, Affordable
Date:	May 18, 2021

Instructions:

Using your researched information fill out the flowing comparing the current state of the art with what you think new (software) innovations could bring to the community

Covering the orientations	
Compare the left-hand column of the document "Technology configuration inventory" table with the right-hand column of the document "Community characteristics & orientation" table. What do you notice about the match (or mismatch) between your dominant community orientations and the current configuration of tools?	
How well does the technology inventory cover the orientations? What themes emerged from both the community orientations and the technology configuration from your colleagues' notes	The community needs a new website to improve their knowledge of renewable energy sources and the importance of energy-efficient devices. This website helps to create a plan to build a renewable energy source at their premises. Some current websites not providing much support for the proposed community. With our new system user can take a fast and quality decision and read many user reviews
☒ Are you almost there? ☐ Are there big gaps?	Renewable energy sources are getting popular now these days. This website provides a different option and many user reviews to help members to take a proper decision properly.
What is the range of skills? If their interests and/or skills are diverse, could it cause conflict or distraction?	The members in the community have great range of skills.
Achieving integration	
Look at all the pieces of your configuration	
What level of integration and interoperability has been achieved?	The integration and interoperability levels are high
Where are there big gaps	
Balancing the polarities (Current state)	
How is the configuration balanced with respect to each polarity?	

Synchronous >>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>	<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<< **Asynchronous**
	Mostly asynchronous
Participation >>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>	<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<< **Reification**
Towards participation	…Reification tools?
Group >>	<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<< **Individual**
…Group tools?	Mostly individual

How well does this balance fit your community?	The website promotes to increase the use of renewable energy and this project would fit well for the community.

Solution seeking

In the new configuration, do you want your choice of tools to affect the polarities of your community in ways that differ from the current configuration? Which way?

Synchronous >>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>	<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<< **Asynchronous**
…Mostly synchronous tools	…New asynchronous tools?
Participation >>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>	<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<< **Reification**
Improved participation	…New reification tools?
Group >>	<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<< **Individual**
This website is for individuals and groups	This website is for individuals and groups

MVP notes
